Stack O' Cats is a balancing game, with a little press-your luck element thrown in. Gather up to six friends for the most fun you'll ever have trying to get a cat to do what you want them to! Take turns stacking wooden cats of all sorts one on top of another, but beware - these cat's won't stay still for long! Be the best at keeping the cats under control, and you'll come out the victor!

Players take turns drawing a cat meeple from the big Bag o' Cats, and balancing it anywhere on top of the cat stack, then gaining points for that cat's placement. The game has multiple point variants to encourage different stacking styles! You can play for most points or least to be crowned victor, you decide which way to play. Thirty two unique shaped cat meeples and forty meeples total ensure that every game will be different! Our sturdy base also ensures that you have a firm foundation to work from to build fun and crazy cat stacks. Solo and coop modes are also available.
